# OVERCOME CITED PATENT OF PUBLICATION (37 CFR 1.131)

- 1. The declaration is to establish completion of the invention in this application in the Land United States, at a date prior to December 1, 2003, which appears to be the effective date of United States Patent 7098594 to Yoon.
- 2. The persons making this declaration are the inventors.

#### FACTS AND DOCUMENTARY EVIDENCE

3. To establish the date of completion of the invention of this application, the following attached document is submitted as evidence:

invention disclosure document seen in Exhibit A

- 4. The attach invention disclosure document is a true and correct copy of the invention disclosure document completed and signed by each named inventor.
- 5. The attached invention disclosure document, dated between June 3, 2003 and July 25, 2003 and signed by the inventors between June 3, 2003 and July 03, 2003 shows a plasma display panel (PDP) comprising an alignment mark, as shown, for example, in the third page to fifth page of the invention disclosure. Such PDP was reduced to practice on or before June 3, 2003 as shown, for example, on the fifth page of the invention disclosure which shows many designs type on the PDP on June 3, 2003. The above date is prior to the effective date of December 1, 2003 of U.S. Patent

7098594 to Yoon cited by the USPTO Examiner in the Office Action of July 18, 2007.

6. The inventors submit that all claims 1-22 as originally filed, and thus current pending PDP claims 12-22 and the not elected claims 1-11 as directed to inventions that ware reduce to practice by June 03, 2003, prior to the December 1, 2003 effective date of Yoon.

### 7. As one of the inventors signing below:

I hereby declare that all statements made herein of our own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code; and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
